FLATTEN BEFORE SAVING

This ensures that layers do not overprint

No responsibility will be accepted where layers are out of order on print.

150dpi

save as PDF/x-1a:2001

I Have checked the following:

1. Page size is as is required for print
2. My design will be uploaded as C.Y.M.K. in PDF format
3. No spot or pantone colours are included in the design
4. All fonts have been converted to curves / outlines
5. There are no crop marks or bleed
6. There is a 20mm margin between text and edge of page
7. My PDF file does not exceed 30mb and is of 150dpi
   (For files exceeding 30mb please contact us for a special upload)
8. Colour matching can only be done if i provide Signmart with a hard copy swatch

Please delete this and the above text on this page as acknowledgement of accepting the above terms and replace with your design.
